

Our Residential House Cleaning System:

We will begin your service with an initial “detail clean” of your home. This first cleaning is similar to a spring cleaning or a “catch-up” clean. Before we can begin regularly scheduled cleanings of a home, there are a variety of first time tasks required that take extra effort and time. There’s a big difference between “old” dirt and “new” dirt. If we don’t get rid of the old dirt first, keeping your home truly sparkling will not be possible. It’s not uncommon for us to spend two to three times longer than it will take us on regular, repeat maintenance visits. After this initial detail clean of your home, you can depend on us to provide the following services listed below each time we are in your home, allowing us to maintain your home to the highest standards

All Rooms

- 1 All readily accessible floors vacuumed and areas under furniture
- 2 Wood floors vacuumed and dust or damp mopped
- 3 Floors washed or mopped
- 4 Window sills, ledges & baseboards dusted
